Action Research Guide - Alberta Teachers' Association

That definition states that action research is a disciplined process of inquiry conducted by and for those taking the action. The primary reason for engaging in action research is to assist the “actor” in improving and/or refining his or her actions. Practitioners who engage in action research inevitably find it to be an empowering experience.

What Is Action Research? - ascd.org

Action research can be defined as “an approach in which the action researcher and a client collaborate in the diagnosis of the problem and in the development of a solution based on the diagnosis”.

Action Research - Research-Methodology

The barriers to the uptake of the findings of traditional quantitative biomedical research in clinical practice are increasingly being recognised. 1,2 Action research is particularly suited to identifying problems in clinical practice and helping develop potential solutions in order to improve practice. 3 For this reason, action research is increasingly being used in health related settings. Although not synonymous with qualitative research, action research typically draws on qualitative ...

Using qualitative methods in health related action research

Action Research is either research initiated to solve an immediate problem or a reflective process of progressive problem solving that integrates research, action, and analysis. The integration of action includes the development and implementation of a plan or strategy to address the focus of the research.
