The Boeing 727 is a narrow-body airliner produced by Boeing Commercial Airplanes. After the heavy 707 quad-jet was introduced in 1958, Boeing addressed the demand for shorter flight lengths from smaller airports. On December 5, 1960, the 727 was launched with 40 orders each from United Airlines and Eastern Air Lines. The first 727-100 rolled out November 27, 1962, first flew on February 9, 1963 ...

In response, the FAA required the airlines to make changes to their training procedures and their flight manuals to stress the importance of stabilized approaches. The landing accidents ended. The 727 went on to compile an admirable operational and safety record, and remained in production for over 20 years until superseded by the Boeing 757 in the 1980s.

The authorities did, however, come out and say that 727 pilots needed more training and that Boeing should modify the flight manual procedures regarding the final approach. Despite all the reassurances that it was a safe aircraft to fly in, passengers boycotted the plane for a good six months until confidence in the aircraft returned.
