Hi, I was wondering whether it is better to take CHM 2045 or CHM 1025. I took Chemistry Honors in 10th grade, but don't really remember much from it. I wasn't sure how much knowledge you needed of chemistry to go into CHM 2045. I'll be fine with the math in the class I just don't really know many chemistry concepts.

You are not wasting your money. I took 1025, got an A, thought I would be fine in 2045... I barely got a B in 2045... Unless you are a chemistry GENIUS, take 1025. Unless you want to fail/barely pass 2045. I basically had to give up all my time this past semester.. and this was at a CC. My CC prof used to teach at UF.
