CT scans are created using a series of x-rays, which are a form of radiation on the electromagnetic spectrum. The scanner emits x-rays towards the patient from a variety of angles - and the detectors in the scanner measure the difference between the x-rays that are absorbed by the body, and x-rays that are transmitted through the body. This is called attenuation.

RADIOLOGY ORDERING GUIDE - Abington

Here is a sequence to quickly pick up all the aspects by scanning relatively few items up front. It is based on this FTB thread, but assumes you have not been to the Nether, and specifies blocks where possible to increase your discovery bonuses, but pieces or ingots will still discover the aspect. The first section should be done more-or-less in order (some items depend on earlier items ...

The advantage of using a scanner to see certain sensor values and door positions also has one extra quality to the diagnostic process: Codes. Codes for the HVAC system are valuable information for you as the tech. However, a code is not the answer, a code is a starting point or a direction for repair. So many times I see vehicles come in with ...
