Crisis Education 4 Foot Farm

Emergency planning ideals. Emergency planning is a discipline of urban planning and design; it aims to prevent emergencies from occurring, and failing that, initiates an efficient action plan to mitigate the results and effects of any emergencies. The development of emergency plans is a cyclical process, common to many risk management disciplines such as business continuity and security risk ...

When a crisis leads to mass displacement, shelter quickly becomes a concern, as well. Convoy is facilitating shelter for Ukrainians in need of a safe place to stay. Supplies like sleeping mats, bedding, blankets, and tents meet immediate needs, while partners in countries like Moldova, Poland, and Ukraine make it possible for those fleeing the ...

Crisis Response: War in Ukraine | Convoy of Hope

For thirty-five years KNA has propelled successful projects in private, corporate, healthcare, industrial, and institutional sectors. The studio operates at the bleeding edge of design at all scales, from office buildings, mixed use corporate campuses and town centers, hospitals, medical centers, industrial facilities, schools, and multi-family homes.

Kimmerle

William Edwards Deming (October 14, 1900 - December 20, 1993) was an American engineer, statistician, professor, author, lecturer, and management consultant. Educated initially as an electrical engineer and later specializing in mathematical physics, he helped develop the sampling techniques still used by the U.S. Department of the Census and the Bureau of Labor Statistics.
