Mastering Biology Questions Chapter 5 (Exam 2) - Quizlet

Conservation biology is the study of the conservation of nature and of Earth's biodiversity with the aim of protecting species, their habitats, and ecosystems from excessive rates of extinction and the erosion of biotic interactions. It is an interdisciplinary subject drawing on natural and social sciences, and the practice of natural resource management.

Conservation biology - Wikipedia

A fetus or foetus (/ˈfɪːtəs/; plural fetuses, feti, foetuses, or foeti) is the unborn offspring that develops from an animal embryo. Following embryonic development the fetal stage of development takes place. In human prenatal development, fetal development begins from the ninth week after fertilisation (or eleventh week gestational age) and continues until birth.

Fetus - Wikipedia

Region 4 serves a seven-county area composed of 50 public school districts and 45 public charter schools, representing more than 1.1 million students, 87,000 educators, and 1,500 campuses.
