The student's accuracy rate and the number of WCPM should improve from the first time to the sixth time as the reader becomes more familiar with the passage. Lesson Summary Let's review.

Strategies for Improving Reading Rate & Accuracy - Study.com

The Sixth Extinction is told in a part textbook, part narrative style; the author gives readers hard facts mixed into detailed personal accounts of her research trips. In 13 chapters, she tells the stories of several species, some long extinct, some still teetering on the brink of extinction, all with one common enemy - us.

Edgar G. Epps and Sylvia F. Smith . This chapter is primarily concerned with the effects of schools and schooling on children ages 6-12. However, because formal schooling in the United States and many other nations frequently begins between ages 4 and 5, some of the research and theory reviewed encompasses this earlier period as well.
