Frank Thomas in their 1981 book *The Illusion of Life: Disney Animation*. The principles are based on the work of Disney animators from the 1930s onwards, in their quest to produce more realistic animations. The main purpose of these principles was to produce an illusion that cartoon ...

## **Twelve basic principles of animation - Wikipedia**

Animation is a method in which figures are manipulated to appear as moving images. In traditional animation, images are drawn or painted by hand on transparent celluloid sheets to be photographed and exhibited on film. Today, most animations are made with computer-generated imagery (CGI). Computer animation can be very detailed 3D animation, while 2D computer animation (which may have the look ...
