History and subtypes of BPEL. The BPEL standard is maintained by OASIS, a nonprofit standards group. It has undergone several revisions and extensions during its history. BPEL was first standardized by collaboration between IBM's Web Services Flow Language and Microsoft's XLang. This first version was named Business Process Execution Language for Web Services (BPEL4WS) when it was submitted in 2003.

What is BPEL (Business Process Execution Language)?

There is no INTEGER data type in Oracle, though there is one in the ANSI standard. In ANSI, an INTEGER is an integer - a number with no decimal precision. 10 is an integer 10.1 is a number In Oracle you can effectively declare an INTEGER by declaring a NUMBER with no precision CREATE TABLE mytest (my_number NUMBER(10,2), my_integer NUMBER(10))

INTEGER VS NUMBER — oracle-tech

Oracle WebLogic Server 14.1.1 is a new major version, adding support for Java Platform, Enterprise Edition (EE) 8 and Java SE 8 and 11. It is supported on-premises and in the cloud, including support and tooling for running Oracle WebLogic Server in containers and Kubernetes, and certification on Oracle Cloud. Read the complete post
