The term "morale" is used to describe the overall feeling in a work center or project team. It is most often thought of as a set of work environment attributes, as perceived directly or indirectly by the people who work in that environment. Morale has a major impact on team members' motivation, behaviors, and productivity; it is also one area over which the project manager has the most ...

The Pygmalion Effect has been studied extensively in the field of education. Teachers' expectations about their students have been shown to impact students' achievement. In one famous study, teachers were told that some of their students would be "intellectual bloomers" and would show significant increases in IQ over the course of the year.
