Sign Languages Of Aboriginal Australia

Most sign languages studied were found to be closely related to the spoken language, thus foreign to other Aboriginal nations. Adam Kendon is considered an expert in this area with his stellar work Sign Languages of Aboriginal Australia. Hand signs are considered one of two competing ideas about how early humans developed language.

Aboriginal languages - Creative Spirits

Deaf sign languages also arise outside educational institutions, especially in village communities with high levels of congenital deafness, but there are significant sign languages developed for the hearing as well, such as the speech-taboo languages used in aboriginal Australia.

List of sign languages - Wikipedia

Australian Aboriginal languages, family of some 200 to 300 Indigenous languages spoken in Australia and a few small offshore islands by approximately 50,000 people. Many of the languages are already extinct, and some are spoken by only dwindling numbers of elderly people, but a few are still vigorous. There is currently a resurgence of ethnic pride among Aboriginal peoples, and government ...
