*Cyperus rotundus* is the universally accepted name. Several subspecies are described though they are rarely recognized in literature on the weed. Haines and Lye (1983) describe four subspecies from East Africa, *rotundus*, *merkeri*, *taylorii* and *tuberosus*, but this is not accepted by all authors. Hutchinson et al. (1972), for example, recognize *C. tuberosus* Rottb. as a species, not as a subspecies ...
