TS CoAgulite milk coagulation control technology replicates the cheese-maker's selection of cutting time while taking into consideration processing effects.

Other dairy products - Web Index Page - Tetra Pak

Homogenization theories. Many theories of the mechanism of high pressure homogenization have been presented over the years. For a low-viscous oil-in-water dispersion like milk, where most of the droplets are in the order of one μm (10⁻⁶ m) in diameter, two theories have survived. Together, they give a good explanation of the influence of different parameters on the homogenizing effect.
