The UL Certification Mark on fire resistant products, systems and assemblies is relied on by code enforcement officials and buyers to provide confidence that products and systems meet regulatory and market requirements. It is a key differentiator for products within the exterior wall assembly market.

...

For nearly 60 years, architects, designers and code authorities have relied on UL fire-resistance-rated wall, floor ceiling, roof ceiling, and column and beam designs for code-compliant installations. More than 1,500 designs are currently available through UL's Fire Resistance Directory or Online Certifications Directory.
