Urban Segregation A Theoretical Approach

This paper intends to present the main theoretical approaches regarding urban segregation. It also aims at highlighting the importance of studying the spatial segregation process in order to understand social-inequality manifestations in the city areas. Thus showing how intimately related both processes are.

CiteSeerX — 1 URBAN SEGREGATION: A Theoretical Approach

considers segregation as the unequal distribution of social groups in the urban space. These two approaches tend to be used separately from one another, and among them the geographical approach is most commonly used. Most existing studies of urban segregation have their main focus on residential locations. The spatial aspect of urban segregation is usually assumed to be uneven locational housing patterns.

Urban Segregation and Socio-Spatial Interactions: A ...

Urban segregation is an inherent feature of cities and becomes a problem when excluding or hindering certain groups from accessing services, activities and spaces. In Brazil, segregation by social class is dominant in the structure of cities and public policies rarely address urban configuration as part of the segregation problem.

Inner city segregation in the US first took shape in the nineteenth century in places like San Francisco's Chinatown where Chinese immigrants, exploited as a low-cost workforce, lived in over-crowded, degraded conditions (Risse, 2012). African-American urban segregation developed in the northern United States somewhat later.

Social segregation, understood as the separation among different social groups, is a worldwide urban phenomenon observed both in developed and developing countries. Certain aspects of segregation are considered a problem, especially those related to the concentration of disadvantaged groups. Poverty concentration, for instance, is believed to

Social-mix policy approaches to urban segregation in ...

Today, many think of racial segregation as something that is in the past because it was legally outlawed in the U.S. by the Civil Rights Act of 1964. But though "de jure" segregation, that enforced by law was banned, "de facto" segregation, the real practice of it, continues today. Sociological research that demonstrates the patterns and trends present in society makes it very clear that racial ...

The Handbook of Urban Segregation scrutinises key debates on spatial inequality in cities across the globe. It engages with multiple domains, including residential places, public spaces and the field of education. In addition it tackles crucial group-dimensions across race, class and culture as well as age groups, the urban rich, middle class, and gentrified households.

Urban segregation: contexts, domains, dimensions and ...

The explanation of segregation these scholars is the well known assumption of a 'from natural' phenomenon. Segregation is said to be a mere incident of urban growth, locational changes and urban metabolism; a condition that the city inevitably produces in a context of competitive cooperation, and

Theories of segregation and policies for integration ...

New forms of urban segregation and exclusion have emerged in the contemporary globalised world. Processes of globalisation, especially those cloaked as free international trade and state withdrawal from economics, have led to increasing inequalities between and within cities.

Socio Spatial Segregation: The Problems of Definition and ...

While segregation was tacitly acknowledged as a social fact by all concerned, it was not taken seriously as an explanatory factor in theorizing the perpetuation of urban poverty. In the ensuing years, Nancy and I elaborated, extended, and applied the concept of hypersegregation and ultimately deployed it a principal theoretical construct in our book American Apartheid (Massey and Denton 1993).

Reflections on the Dimensions of Segregation

For this understanding, we must turn to the fifth and final theoretical approach to segregation—the institutional view—which is strongly linked to historical factors that have fostered racial discrimination in housing. Institutional explanations of segregation focus on the involuntary aspects of residential location and distribution. According to this view, involuntary segregation occurs because of institutional racism in the entire housing delivery system, including real estate ...
